## Summary

---

Career changer with 15+ years of operational and management experience, transitioning into cybersecurity. Self-taught web developer with hands-on experience building full-stack applications. Currently pursuing the HTB Junior Cybersecurity Analyst (CJCA) certification with a focus on SOC analyst roles. Strong foundation in Linux, networking fundamentals, and security concepts built through Hack The Box Academy. Eager to bring a disciplined, problem-solving mindset to an entry-level security role in the DMV area.

## Experience

---

### Lead Bartender Berhta, Washington, DC

2025 – Present

- Lead bar service and coordinate with staff and management in a high-volume, four-bar nightclub environment.
- Trained in handling sensitive customer data and payment systems securely.
